

Take Me Home

Your looking for the right combination
You need to hear communication
Before the sweet celebration
Of our love

It could be now maybe later
You need to see an indicator
That I'm for real and no faker
With my love

So take me home
Don't be afraid
Take me home
Come what may
Love is here and then its gone
Why don't you take me home

I walk a mile in your shoes
Ain't nobody like to feel used
Here's what I intend to do
With your love

If you take me home
Don't be afraid
Take me home
I'm goin' your way
Love is here and then its gone
Why don't you take me home
