

Love Is Cruel

**Silence
The golden rule
Violence
Is nothing new**

**You say that we will never part
Then you go and break my heart**

**Promises
That you will change
Are like snow flakes
In the rain**

**And the saddest fact is that
I always take you back**

**True love
Plays a fool
But Only you my love
Could be so cruel**

**Make up
Hides the bruise
Violence
The ugly truth**

**And the saddest fact is that
I always take you back**

**True love
Plays a fool
But Only you my love
Could be so cruel**
