

Hairpin Culvert

(Ride on, ride on, ride on baby ride on) x 2

I was thinkin bout nobody, the accelerator down

Here comes a hairpin culvert, I'll never get around

That's when you take control, and whisper in my ear

Tell me what you want baby, then step up a gear.

(Ride on, ride on, ride on baby ride on) x 2

I was goin off the rails, runnin out of steam

No fire in the engine, no driver in my seat

That's when you climbed aboard, and said lets all get loose

This party's up the back baby

Check out my caboose

(Ride on, ride on, ride on baby ride on) x 2

I just have to thank the Lord

(Ride On)

Every time you climb aboard

(Ride On)

Come on baby

Ride on.
